

Safer together.

We are happy to announce the appointment of EP Engineering Sdn Bhd as our agent in Malaysia, the Philippines and Indonesia. With their extensive background in the industry and demonstrated skill in developing customer relationships, they will be a valuable asset to our team.

Together, Maersk H2S Safety Services and EP Engineering Sdn Bhd. will provide our safety services within the region.

Our safety services include:

- A tailored gas safety equipment package, including rental of protection and detection equipment
- Supervisory personnel qualified to prepare and maintain gas safety contingency plan
- H2S briefings and awareness onsite
- Preparation of safety documentation, including contingency plans and procedures
- Equipment testing, inspection and maintenance
- Training onshore and offshore
- H2S Awareness eLearning
- NORM & Mercury Safety Services
- HSE Services

Two companies. One goal.

We look forward to working together to meet your gas safety requirements.
